ABOUT BUFFALO ENERGY

The Buffalo energy drinks GmbH is one of the fast-growing beverages brands in the entire world., We have been in the market since 2007, and we sell our products in more than 20 countries.

Rather than being business-oriented, we are putting consumer health as a top priority! We focus on each consumer as a unique value to enhance his lifestyle and inspire him to DO MORE, with careful consideration of taste and experience—our plan is to reach more audiences and impact all communities around the world by 2030.

OUR MISSION

Buffalo Beverages is on a mission to lead the sector, provide convenient people-based energy products, enable the next generation to do more, help make the world adventurous forever and shape a better future.

PURPOSE

inspire and energize the uncompromising generation of tomorrow to own the moment and live to the most.

BUFFALO VISION FOR THE FUTURE:

to be the world's most trusted, loved and people-relevant beverages brand worldwide

WHY BUFFALO

Ideally suited and appreciated by 20 countries by the young generation, Buffalo has helped people do more during any kind of work to enhance their lifestyle.

Regarded as a 100% vegan and taurine free beverage without compromising taste and experience, with an excellent blend of high-quality ingredients like Vitamins, Buffalo will fuel you up for a new adventure and spice up your day!

Powered in Switzerland and made in EU countries, Buffalo has been a prominent name in the import and disruption business in Europe since 2007.

Businesses, resellers, and other Buffalo wholesale distributors can expect a 100% genuine and high-quality product and get the best deal on bulk orders. They can also enjoy the benefits of being part of the international distributor network and potentially being exclusive distributors of Buffalo in their countries.
